

# TG-F 300 fixed height green roof gully

Part No.: 3200

## Application area

The TG-F 300 is part of our TG-F fixed height drainage gully range. The unit is directly installed over each roof outlet where the size of surrounding terrace tiles is 300 x 300 mm and no further height adjustment in the unit is required in order to fit flush into its surrounding.

## Benefits

- ☑ can be fitted to virtually any outlet on the roof
- ☑ allows for easy inspection and quick maintenance of the outlets
- ☑ heavy-duty, base is made of impact and UV resistant polypropylene
- ☑ the narrow-spaced openings of the grating prevent larger debris from entering and blocking the outlets
- ☑ easy and quick to install
- ☑ also available in custom-fitted heights for easier installation

## Technical data
